SUMMARY

Health-tech-focused Pharmacy student at Addis Ababa University, combining clinical training in pharmacology and patient care with hands-on full-stack development skills (MongoDB, Express.js, React.js, Node.js, Python, SQL) gained through the Power Learn Project. Experienced in building production-ready software — including a self-hosted monitoring platform, an AI assistant, and a community reporting app — with a growing focus on applying that technical foundation to healthcare-specific problems. Currently expanding into cybersecurity, cloud/DevOps, and AI/ML to support secure, data-driven health solutions. Committed to developing accessible, technology-driven tools that improve patient outcomes across underserved communities.

EXPERIENCE

Pharmacy 4th Year Student

Sep 2023 - Present

Addis Ababa University, Addis Ababa, Ethiopia • Addis Ababa, Ethiopia

- Completing clinical rotations at Black Lion Hospital, building hands-on experience in pharmacology, medication management, and patient counseling.
- Applying clinical exposure to inform the design of health-focused software tools, including a medication reminder application and a pregnancy/menstrual health tracker.

Full Stack Web Development (MERN Stack) Student

Jul 2025 - Dec 2025

Power Learn Project, Online • Online

- Built and deployed full-stack web applications using MongoDB, Express.js, React.js, and Node.js, including health-oriented projects such as a Community Pharmacy Reminder App.
- Designed RESTful APIs, implemented user authentication, and optimized application performance.
- Conducted code reviews and troubleshooting to improve reliability and functionality across projects.
